

**MILK RIVER INTERCOUNTY DRAIN
LANDOWNER AGREEMENT FORM**

Date: _____

Property Address: _____

MRIDDD Contractor: Landscape Services, Inc., 22932 Rasch Drive, Clinton, Twp., MI 49035
(586) 741-5296

Landowners: _____

Phone # _____

I am an owner of property at the address listed above. I hereby give **temporary** permission for Landscape Services, Inc., its employees and agents of the Milk River Intercounty Drain Drainage District ("LSI") to cross my property for purposes of ingress and egress to the Milk River Drain right-of-way for the purposes of the **placement of sandbags for flood protection purposes.**

I acknowledge that it may be necessary to place some of the sandbags in places that are not within the Drain right-of-way, and I give **temporary** permission to the placement of sandbags by LSI in those locations. My temporary permission for sandbag placement outside of the Drain right-of-way means that the sandbags will stay in place for as long as the Emergency Condition declared either by the City of St. Clair Shores or the Milk River Intercounty Drain Drainage District exists.

I acknowledge that it may be necessary to clear brush or other growth in the area of the sandbagging, and I give my permission for Milk River Intercounty Drain Drainage District and its Contractor to do any necessary clearing with the understanding that 1) The Field Supervisor will notify me beforehand of any clearing to take place; 2) The Milk River Intercounty Drain Drainage District's Contractor will repair any damage to fencing, pavement, installed landscaping, or other structures caused by their activities on my property; and 3) The Milk River Intercounty Drain Drainage District's Contractor will use equipment mats if those are necessary for the protection of the lawn on my property.

The permissions that I am giving to the Milk River Intercounty Drain Drainage District's Contractor end when the placement of the bags is completed, except (as mentioned above) any bags placed must remain until the Declarations of Emergency are rescinded. Within a reasonable time after suspension of the Declarations of Emergency, the Milk River Intercounty Drain Drainage District will remove the sandbags. The property owner will be contacted by the District prior to removal.
